We wish you all a very joyous holiday season and a New Year filled with peace and good health.

REMINDER: Effective Date Delayed for Guidance Statement on Broadly Distributed Pooled Funds
Following consultation, the GIPS Executive Committee has determined that the effective date of the Guidance Statement on Broadly Distributed Pooled Funds will be delayed to 1 January 2020 to coincide with the effective date of the 2020 edition of the GIPS standards. Additionally, we are working to provide further details regarding the Safe Harbor provision associated with this GIPS guidance statement and will make that available to you as soon as possible. Nevertheless, we strongly encourage firms to adopt the Guidance Statement early.

We Want to Hear from You
The Exposure Draft of the GIPS Guidance Statement on Benchmarks has been released for public comment and is open for feedback until 29 January 2018. The purpose of this proposed guidance statement is to provide new interpretation on benchmarks as it pertains to the application of the GIPS standards. Covering such topics as selecting an appropriate benchmark, the role of benchmarks, and practical considerations concerning benchmarks provides a strong background for firms when considering benchmarks within compliant presentations. Such concepts as price-only benchmarks, multiple benchmarks, and benchmark changes attempt to answer questions long held by the industry.

For more information about this guidance statement exposure draft, you can find the recording
of a webinar about it (Proposed GIPS Guidance Statement on Benchmarks) as well as the webinar presentation on the GIPS website.
